Category: computer-and-mathematical

We partner with the world's most valuable brands to build digital solutions that transform businesses. As a digital native, we bring a 29-year track record of accelerating business impact through complete and scalable digital solutions. With a global presence of 6,000+ professionals in strategy, research, data science, design and engineering, we unlock top-line growth, improve customer experience, and drive operational efficiency. We are on the lookout for a skilled and innovative iOS Developer to become a vital part of our dynamic team. In this role, you will take on the responsibility of designing and developing advanced applications for the Android platform. Collaborating closely with our product development and design teams, you will have the opportunity to conceptualize, build, test, and deploy applications that not only enhance user experiences but also reach millions of users worldwide. The ideal candidate will possess solid experience in iOS development, with proficiency in both Swift and Objective-C, and a strong background in native app development, analytics, tagging, and ensuring release quality. Experience with Firebase is also essential. Additionally, candidates with experience in Android and web development, particularly with React, will be considered to have a significant advantage. #LI-

RN1#MidSenior **CI&T is an equal-opportunity employer. We celebrate and appreciate the diversity of our CI&Ters' identities and lived experiences.
