Hi There, This is **Salwa** from CI&T! I am a Talent Attracting Analyst looking for people based in **Colombia** for a **Senior DevOps position** to work on a project in the **fast food sector**. **Responsibilities:**

- **Migration Expertise:** Lead the migration effort from TKGI to AKS, understanding the intricacies of both environments, identifying potential challenges, and designing a robust migration strategy.
- **Infrastructure Management:** Oversee the configuration, deployment, and management of the AKS environment, ensuring its scalability, availability, and performance meet or exceed the current TKGI setup.
- **Collaboration:** Work closely with cross-functional teams, including developers, architects, and operations, to ensure a smooth transition and to address any technical issues that arise during the migration process.
- **Automation:** Implement and improve CI/CD pipelines, infrastructure as code (IAC), and other automation processes to streamline the migration and ongoing management of the AKS environment.
- **Security and Compliance:** Maintain a strong focus on security best practices, ensuring that the AKS environment is properly configured and that all necessary compliance standards are met.
- **Monitoring and Troubleshooting:** Set up monitoring tools, alerts, and proactive troubleshooting mechanisms to quickly identify and address any performance or reliability issues within the AKS environment.
- **Documentation:** Document the migration process,

configuration, and best practices for the AKS environment, providing valuable resources for the team and future reference. **Qualifications:** - Experience as a DevOps Engineer, with a strong track record of successfully migrating complex infrastructure projects.- Expertise in TKGI and AKS environments, including containerization, orchestration, Kubernetes, and cloud services (particularly Azure).- Advanced English: Exceptional written and verbal English communication skills are essential, as this role requires collaboration with global teams and documentation of the migration process.- Automation Tools: Proficiency with CI/CD tools (e.g., Jenkins, GitLab CI/CD), infrastructure as code (e.g., Terraform, Ansible), and scripting languages (e.g., Python, Bash).- Security: Knowledge of security best practices in cloud environments, including network configuration, access controls, and encryption.- Strong analytical and problem-solving skills to identify, troubleshoot, and resolve technical challenges.-Team Leadership: Ability to lead and mentor junior members of the team, fostering a collaborative and growth-oriented environment.**Our benefits:-** Health plan and dental plan;- Meal allowances;- Childcare assistance;- Extended parental leave;- Gympass- Annual profit-sharing distribution;- Life insurance;- Partnership with an online mental health platform;- CI&T University;- Discount Club;- Support Program: legal; financial; physiotherapy; psychological guidance; nutritionist and more;- Pregnancy course and responsible parenthood;- Partnership with online course platforms- Platform for language learning;- And many others.#MidSenior#LI-SC1 **CI&T is an equal-opportunity employer.
