[Job-14684] Senior Data Analyst, Colombia

Apply Now

Company: CI&T

Location: Colombia

Category: business-and-financial-operations

We partner with the world's most valuable brands to build digital solutions that transform businesses. As a digital native, we bring a 29-year track record of accelerating business impact through complete and scalable digital solutions. With a global presence of 6,000+ professionals in strategy, research, data science, design and engineering, we unlock top-line growth, improve customer experience, and drive operational efficiency. Hello everyone! I am Tayná Oliveira, Talent Attraction Analyst from CI&T! We are actively seeking a highly skilled **Senior Data Analyst** to become a part of our innovative team. This crucial role requires close collaboration with our business units to deeply understand their challenges and leverage data towards strategic solutions. In this position, you will use advanced analytics to convert business requirements into tangible insights, making a direct impact on our growth and operational excellence. If you are passionate about data storytelling and thrive in solving complex problems, join us in driving our data-centric approach to decision making.

Responsibilities: Develop advanced analytics models and reports using SQL and PowerBI, with a strong preference for skills in Tableau, to inform and drive business decisions. Engage with stakeholders across the organization to comprehend business challenges, devise analytical strategies, and effectively communicate data insights. Create, manage, and optimize data pipelines in Snowflake and DBT to ensure data integrity and accessibility for analytics purposes. Perform detailed analyses of business data (including financial, sales, and customer information) to identify trends, opportunities, and potential risks. Lead the implementation and ongoing improvement of business intelligence solutions, ensuring they align with business needs and user expectations. Provide training and support to

business users on data analytics and visualization tools, empowering them to make informed decisions. Keep abreast of the latest trends and technologies in data analytics and business intelligence, adopting best practices to continuously enhance our data capabilities. **Requirements:** Demonstrated experience in a Data Analyst or Business Data Analyst role, with proficiency in SQL and PowerBI. Basic understanding of Python, Snowflake, and DBT, with eagerness to develop these skills further. Proven capability in data modeling, analysis, and visualization, preferably with expertise in Tableau. Strong analytical skills, with the ability to manage, analyze, and share extensive data sets accurately and effectively. Proficient in developing queries, writing reports, and presenting findings, capable of simplifying complex data into actionable insights. Advanced or fluent English language skills, with the ability to comprehend business requirements and translate them into technical specifications. Excellent interpersonal and collaborative skills, capable of working across different teams and disciplines. **Nice to Have:** Previous experience in a senior or supervisory role, demonstrating the ability to guide and mentor junior analysts. Experience with Tableau. #MidSenior#LI-TO1

CI&T is an equal-opportunity employer. We celebrate and appreciate the diversity of our CI&Ters' identities and lived experiences. We are committed to building, promoting, and retaining a diverse, inclusive, and equitable company and culture focused on creating a better tomorrow. At CI&T, we recognize that innovation and transformation only happen in diverse, inclusive, and safe work environments. Our teams are most impactful when people from all backgrounds and experiences collaborate to share, create, and hear ideas. Before applying for our opportunities take a look at on website.
