

## [Job - 14839] Senior Data QA Automation Tester, Colombia

[Apply Now](#)

Company: CI&T

Location: Colombia

Category: computer-and-mathematical

We partner with the world's most valuable brands to build digital solutions that transform businesses. As a digital native, we bring a 29-year track record of accelerating business impact through complete and scalable digital solutions. With a global presence of 6,000+ professionals in strategy, research, data science, design, and engineering, we unlock top-line growth, improve customer experience, and drive operational efficiency. Hey! I am Laura, a Talent Analyst looking for people in Colombia who would like to be part of our team as a **Senior Data QA Automation Tester** to work on an international project for a major player in the fast food industry

**Responsibilities:**

- Test Development: Design and implement comprehensive unit and integration tests in Python, focusing on data science algorithms, models, and API interactions.
- Automation of Testing Processes: Develop and maintain automation frameworks for efficient testing of data science applications, including continuous integration and deployment (CI/CD) pipelines.
- API Testing Expertise: Conduct thorough API testing, ensuring seamless integration and reliable performance of data science applications with external services.
- Code Review and Feedback: Perform code reviews for data science projects, offering constructive feedback and suggestions for improvement to ensure code quality and adherence to best practices.
- Testing Strategy and Planning: Collaborate with the data science team to develop and implement effective testing strategies that cover all aspects of functionality, performance, and reliability.
- Bug Tracking and Resolution: Identify, document, and track bugs and issues, working closely with the development team to facilitate timely resolutions.
- Continuous Improvement: Continually assess and improve testing processes, tools, and methodologies to enhance the efficiency and effectiveness of the QA function.
