[Apply Now](#)

Company: Support Shepherd

Location: Bogotá

Category: computer-and-mathematical

Position(LatAm) Shopify Developer.

Salary Range\$2.500 - 4.000 USD.

Type of contractIndependent contractor,

English Level: English C1.

Only English resumes will be reviewed.

We are seeking a Shopify Developer with a solid understanding of Shopify, as well as a high level of comfort working in Liquid, Javascript, and Shopify API's. Our client helps brands exceed campaign goals by crafting memorable, unique customer experiences. They blend creative, marketing and technology to drive tangible results.

Responsibilities

Develop, customize, and maintain Shopify websites, ensuring functionality, usability, and performance.

Utilize expertise in Liquid, JavaScript, and Shopify APIs to implement features, enhancements, and integrations.

Demonstrate a keen eye for design and usability, translating concepts into visually appealing and user-friendly interfaces.

Optimize site speed and performance, implementing strategies to enhance user experience and conversion rates.

Maintain awareness of industry trends and best practices in Shopify development,

recommending improvements and innovations.

Requirements

Solid understanding of Shopify platform, with demonstrated experience in custom development and theming.

Proficiency in Liquid templating language, JavaScript, and Shopify APIs.

Strong background in HTML/CSS, and responsive design principles.

Experience optimizing site speed and performance.

Ability to work effectively within the EST business day, accommodating client needs and deadlines.

Experience with back-end integrations and API-driven development, preferably with JavaScript.

Familiarity with NodeJS is a plus.

UI/UX expertise, with the ability to translate design concepts into functional interfaces.
