Company: GAP

Location: Colombia

Category: computer-and-mathematical

WHAT WE DO

Founded in 7, Growth Acceleration Partners (GAP) is a consulting and technology services company. We consult, design, build and modernize revenue-generating software and data engineering solutions for clients. With modernization services and AI tools, we help businesses achieve a competitive advantage through technology. GAP's remote, integrated engineering teams use end-to-end solutions to innovate and align with your business goals. We have + English-speaking engineers based in Latin America and approximately U.S.-based engineers. With some of the highest customer satisfaction scores in the industry, GAP's focus is customer and employee success.

GAP is a woman-owned company headquartered in Austin Texas. We are a values-based company focused on growing our people by investing in education, onsite English classes and training in the latest technologies, including AI, data analytics and machine learning. Our goal is to provide solutions for our customers that help them achieve critical business outcomes, while enabling our GAPSters and our communities to attain long-term success.

Position Profile

The position is for a Front-End engineer with experience with React and front-end development. They must write in JavaScript using React and potentially Node. They must know CSS and HTML extensively in addition.

Knowing some Node would benefit the candidate.

Must have:

4+ years of experience in computer-related fields

Solid experience in JavaScript

1+ years of experience in Node.js

3+ years of experience in React.js.

Solid experience in modern Node and React concepts (Functional components, context, and hooks)

Solid experience with SQL (postgres experience is preferable but not required)

Data modeling and writing migrations are required.

Experience in GraphQL.

Good English and Communication skills including concise, effective, and audience-oriented communication.

Experience with Agile Methodologies

Able to share his/her knowledge within his/her team

Some experience mentoring team members.

Experience working with teammates to diagnose and resolve issues

Experience with writing tests and debugging

Knowledge of design patterns

Experience with abstractions and code isolation

Good sense of productivity, urgency, and priority

Takes into account overall Product and business objectives

Adaptability is required to be strong for this role. Should be able/open to learning new frameworks and technologies in case necessary. So an open learning mindset is required here.

Nice to Have:

Familiarity with DevOps methodology and tools, such as CloudBuild, Helm, Terraform, Docker, etc.

Experience with Cloud services like GCP, Azure, or AWS (GCP is ideal) including deploying applications on the cloud

Angular
