We help the world run better

Our company culture is focused on helping our employees enable innovation by building breakthroughs together. How? We focus every day on building the foundation for tomorrow and creating a workplace that embraces differences, values flexibility, and is aligned to our purpose-driven and future-focused work. We offer a highly collaborative, caring team environment with a strong focus on learning and development, recognition for your individual contributions, and a variety of benefit options for you to choose from.Apply now!

The consumption of intelligent technologies, like machine learning, IRPA, applied to complex business processes supported by wide range of applications requires a great user experience that makes this adoption easy and efficient. The design and implementation of the best UX that makes this possible is a new practice for all organizations which is only possible with deep understanding of the UX technologies and how they should be applied to business processes.

The UX&Mobile Architect is a full time, techno-functional role that leads the implementation of SAP UX Startegy for the whole SAP suite which includes on premise and cloud applications with S/4 HANA as the digital core.

Expectations and tasks:

Responsible for implementing SAP's standard User Experience solutions for customers.

Ensure successful communication, deployment and adoption of SAP UX strategy in every project. This means proactive evangelization of SAP UX strategy and leading a change to embed UX activities into projects

Conduct UX workshops with various functional teams to plan prioritize, design and build UX applications to support a complete and cohesive user experience.

Provide knowledge transfer to project and customer teams on SAP UX solutions.

Stay current on UX trends and best practices across interaction types (web, mobile, etc.) and creatively apply UX trends to customer needs.

Education and Basic Qualifications:

Graduate level with Bachelor in Information Systems, Engineering, Computer Science or other equivalent degree.

Work Experience:

4+ years of experience working on SAP ECC or SAP S/4HANA implementations with a UX role

6+ years of experience working with software development using SAPUI5 and BTP

Technical skills

The candidate should have proven knowledge and skills in the following areas:

SAP Fiori, UX for S/4HANA are the most important ones as well as BTP knowledge. BTP and/or any Fiori/SAPUI5 Certification would be a plus

Knowledge of any of the following UX SAP Solutions are not a must but would be a clear advantage: SAP Asset Manager, SAP BTP Mobile Services / MDK, SAP Launchpad Service / Mobile Start, SAP Business App Studio, SAP Work Zone.

Java, Phyton, PhP, CSS, NodeJs, C++, Angular, React, Native iOS, native Android development skills would be a plus

ABAP and OData service development would be a plus

Soft skills

The candidate should show the following competences

Customer focus

Communication and presentation skills

Leadership attitude

Business acumen/process orientation

Innovative thinking

Ability to manage multiple tasks, work in a team environment, understand and be responsive to project and customer needs.

Ability to learn IT topics quickly and apply it to business.

Language: Local + proven good level of English (written and spoken)

We build breakthroughs together

SAP innovations help more than 400,000 customers worldwide work together more efficiently and use business insight more effectively. Originally known for leadership in enterprise resource planning (ERP) software, SAP has evolved to become a market leader in end-to-end business application software and related services for database, analytics, intelligent technologies, and experience management. As a cloud company with 200 million users and more than 100,000 employees worldwide, we are purpose-driven and future-focused, with a highly collaborative team ethic and commitment to personal development. Whether connecting global industries, people, or platforms, we help ensure every challenge gets the solution it deserves. At SAP, we build breakthroughs, together.

We win with inclusion

SAP's culture of inclusion, focus on health and well-being, and flexible working models help

ensure that everyone – regardless of background – feels included and can run at their best. At SAP, we believe we are made stronger by the unique capabilities and qualities that each person brings to our company, and we invest in our employees to inspire confidence and help everyone realize their full potential. We ultimately believe in unleashing all talent and creating a better and more equitable world.

SAP is proud to be an equal opportunity workplace and is an affirmative action employer. We are committed to the values of Equal Employment Opportunity and provide accessibility accommodations to applicants with physical and/or mental disabilities. If you are interested in applying for employment with SAP and are in need of accommodation or special assistance to navigate our website or to complete your application, please send an e-mail with your request to Recruiting Operations Team: Careers@sap.com

For SAP employees: Only permanent roles are eligible for the SAP Employee Referral Program, according to the eligibility rules set in the . Specific conditions may apply for roles in Vocational Training.
