

CLOUD SENIOR SME

[Apply Now](#)

Company: 1160 Kyndryl Colombia SAS

Location: Medellín

Category: other-general

Description

As a System Administrator at Kyndryl, you'll solve complex problems and identify potential future issues across the spectrum of platforms and services. You'll be at the forefront of new technology and modernization, working with some of our biggest clients – which means some of the biggest in the world.

Responsibilities:

- Design, implement and manage cloud solutions with Azure.
- Develop and maintain CI/CD pipelines to ensure fast and reliable deliveries.
- Automate processes to improve operational efficiency and infrastructure management.
- Collaborate closely with development teams to integrate DevOps practices into the software lifecycle.
- Monitor and optimize the performance of applications and cloud infrastructure.
- Ensure the security of the cloud platform and adhere to compliance policies.
- Support the identification and implementation of continuous improvements in Azure management processes.

Your future at Kyndryl

Every position at Kyndryl offers a way forward to grow your career, from Junior System Administrator to Architect. We have opportunities for Cloud Hyperscalers that you won't find anywhere else, including hands-on experience, learning opportunities, and the chance to certify in all four major platforms. One of the benefits of Kyndryl is that we work with clients in a

variety of industries, from banking to retail. Whether you want to broaden your knowledge base or narrow your scope and specialize in a specific sector, you can find your opportunity here.

Who You Are

You're good at what you do and possess the required experience to prove it. However, equally as important – you have a growth mindset; keen to drive your own personal and professional development. You are customer-focused – someone who prioritizes customer success in their work. And finally, you're open and borderless – naturally inclusive in how you work with others.

Required Technical and Professional Expertise

- University degree in Computer Science, Systems Engineering or related field.
- Proven experience in the DevOps Engineer role, preferably with an emphasis on Azure.
- Strong knowledge in building and maintaining continuous integration and continuous deployment (CI/CD) systems.
- Ability to write efficient and reliable scripts in [relevant languages, e.g., Python, Bash, PowerShell].
- Knowledge of containers and orchestration, such as Docker and Kubernetes.
- Azure certification is highly desirable.
- Soft Skills in communication, teamwork and problem solving are a plus.

Being You Diversity is a whole lot more than what we look like or where we come from, it's how we think and who we are. We welcome people of all cultures, backgrounds, and experiences. But we're not doing it single-handedly: Our Kyndryl Inclusion Networks are only one of many ways we create a workplace where all Kyndryls can find and provide support and advice. This dedication to welcoming everyone into our company means that Kyndryl gives you – and everyone next to you – the ability to bring your whole self to work, individually and collectively, and support the activation of our equitable culture. That's the Kyndryl Way.

What You Can Expect With state-of-the-art resources and Fortune 100 clients, every day is an opportunity to innovate, build new capabilities, new relationships, new processes, and new value. Kyndryl cares about your well-being and prides itself on offering benefits that give you choice, reflect the diversity of our employees and support you and your family

through the moments that matter – wherever you are in your life journey. Our employee learning programs give you access to the best learning in the industry to receive certifications, including Microsoft, Google, Amazon, Skillssoft, and many more. Through our company-wide volunteering and giving platform, you can donate, start fundraisers, volunteer, and search over 2 million non-profit organizations. At Kyndryl, we invest heavily in you, we want you to succeed so that together, we will all succeed.
