Creative Developer

Apply Now

Company: Hylink Digital

Location: Bogotá

Category: computer-and-mathematical

Who We Are   Hylink Group was created from pure ambition. From the day we earned our very first client in 1994, to the global scale we have grown to become, our singular focus remains clear: work tirelessly to help our clients exceed their own ambitions. Whether crafting innovative campaigns that deliver storytelling at scale, or optimizing the curation and deployment of media with purpose, we believe each project is an opportunity to use our extraordinary diversity to reach, and to learn, and to grow stronger and more capable than ever before. It's a journey with no finish line, and that's just the way we like it. That's why we're looking for talented individuals who share that passion to come join our team.   Are you ready to Advance Beyond Ambition?   As a Creative Developer, you will be responsible for developing creative solutions that push the boundaries of technology and design. You will work closely with cross-functional teams to deliver high-quality software products that are both visually stunning and functionally superior. Your expertise in web development, computer graphics, and user experience (UX) design will be essential in shaping the future of our company.   Collaborate with designers and developers to deliver high-quality creative products Create prototypes and beta versions of products Conduct usability testing and gather feedback to improve product design Work with the development team to implement design solutions Stay up-to-date with industry trends and emerging technologies Communicate effectively with both technical and non-technical audiences.   Qualifications: Bachelor's degree in Computer Science, Computer Graphics, Design, or related field 3+ years of experience working as it. Proficiency in HTML, CSS, JavaScript Experience with front-end frameworks (e.g., React, Angular, Vue.js) is a plus. Knowledge of design principles and

user experience (UX) design Strong problem-solving skills and attention to detail Excellent communication and collaboration skills Familiarity with graphic design and wireframing tools Proven experience with a strong portfolio showcasing creative work. Ability to work independently and manage multiple projects simultaneously.   Preferred Skills Experience working in popular 3D JavaScript libraries such as Three.js, Babylon.js, or PlayCanvas. Understanding of 3D modeling, animation, and rendering techniques Experience creating interactive 3D visualizations, simulations, or games Familiarity with popular game engines such as Unity, Unreal Engine, or Godot Knowledge of PBR, physics, collision detection, and animation techniques   Recruitment Process: You will be contacted by our team within 72 hours of your application. Our recruitment process takes a maximum of 21 days from the first interview and you will be notified in case of success or failure. Hylink is an Equal Opportunity Employer committed to providing a workplace free from discrimination or harassment. We believe that no one should be discriminated against because of their differences, such as age, disability, ethnicity, gender, gender identity and expression, religion or sexual orientation. Decisions related to hiring, compensating, training, evaluating performance, or terminating are made fairly without regard to age, race, creed, color, religion, sex, national origin, ancestry, disability status, veteran status, sexual orientation, gender identity or expression, genetic information, marital status, citizenship status or any other basis as protected by federal, state, or local law.
