## Data Quality Engineer (#16050251)

[Apply Now](#)

Company: N-iX

Location: Colombia

Category: architecture-and-engineering

**Work type:**Office/Remote **Technical Level:** Middle **Job Category:** **Project:** Global cloud computing services pioneer

Our client is an American managed cloud computing company based in San Antonio, Texas. The Data Quality Engineer is responsible for the data consistency, quality, and transparency of the data collected from all internal and external sources, and will primarily support the Data Engineering Team. This individual will also be responsible for the QA of data flow, or ensuring there is a consistent QA procedure in place for all teams to follow when enhancing existing applications or the developing of new products.

### **Responsibilities:**

Work with data warehouse and development teams to help drive consistency across our varied data domains

Document data capture requirements as required

Perform QA data testing and validation on all changes, and periodic QA reviews of existing data feed using SQL and other tools

Assist with the creation of core enterprise data governance guidelines

Work collaboratively in an Agile/Scrum team guiding the testing process for both development and other quality engineers

Evaluate and approve data for validity and impact on deliverables

Respond to internal data inquiries

Compile and analyzing data reports

**Desired Skills and Competencies:**

2+ years of software testing and QE experience in data space

2+ years' experience with data processing or ETL

2+ years of QA or data validation using tools such as SQL or Python

QA experience - specifically testing data pipelines

Understanding of data analysis and interpretation

Exposure to agile/scrum methodologies

English level Upper-Intermediate or above

**Nice to have:**

Experience with GCP and BigData

Knowledge of performance test tools is a plus

Optionally - experience with test automation tools, such as JUnit and other open-source test automation tools

BS/MS degree in Computer Science, Engineering or a related subject

**We offer:**

Flexible working format - remote, office-based or flexible

A competitive salary and good compensation package

Flexible and personalized career growth

Professional development tools (mentorship program, tech talks and trainings, centers of excellence, and more)

Active tech communities with regular knowledge sharing

Education reimbursement

Paid vacation days, sick leaves, and days off

Healthcare & Sport program

Medical insurance

Memorable anniversary presents

Corporate events and team buildings
