

E2E Supply Chain Sr. Production Planner

[Apply Now](#)

Company: Zimmer Biomet

Location: Bogotá

Category: other-general

At Zimmer Biomet, we believe in pushing the boundaries of innovation and driving our mission forward. As a global medical technology leader for nearly 100 years, a patient's mobility is enhanced by a Zimmer Biomet product or technology every 8 seconds.

As a Zimmer Biomet team member, you will share in our commitment to providing mobility and renewed life to people around the world. To support our talent team, we focus on development opportunities, robust employee resource groups (ERGs), a flexible working environment, location specific competitive total rewards, wellness incentives and a culture of recognition and performance awards. We are committed to creating an environment where every team member feels included, respected, empowered, and recognized.

What You Can Expect

The E2E Supply Chain Sr. Production Planner at Zimmer Biomet is responsible for ensuring reliable product availability and optimizing service levels, inventory, and supply chain. The E2E Supply Chain Planner converts the aggregate family and monthly supply plans into SKU and weekly supply and distribution plans. This global role requires close cooperation and working with a number of stakeholders within Zimmer Biomet. The role is also responsible for continuously monitoring the flow, informing stakeholders and taking proactive measures to ensure that agreed targets are met. In doing so, this position helps Zimmer Biomet commit to the highest standards of patient safety and quality in our products and

services and to world-class integrity and ethical business practices.

How You'll Create Impact

Strategic & Vision

Manage the global SKU level, weekly supply and distribution planning for dedicated global product lines

Drive robust standard planning processes to manage business rules and planning parameters, based on appropriate, data driven decisions and correct data usage

Contribute to establishing a reliable, high quality centralized supply planning function within Zimmer Biomet's supply chain

Operations

Execute global supply and distribution planning processes at the SKU level for dedicated product lines across multiple plants and distribution nodes

Contribute to the annual budgeting and monthly projections for assigned scope of product families and SKUs

Apply Class A principles and best practices

Expert user in the advanced planning system for creating and managing the

Evaluate and respond to demand plan change requests within the demand time fence

Analyze large quantities of data to help the Supply Chain team and other parts of the organization make decisions that drive value

Design clear, impactful metrics and reports that will help drive our business

Coordinate resolution of exceptions within the demand time fence

What Makes You Stand Out

Knowledge and understanding of manufacturing processes and procedures required

Knowledge of all aspects of material management, supply planning, and delivery highly preferred

Experience in medical device regulatory environment is preferred

Ability to apply continuous process improvement

Ability to use analytical tools to issue, support, and execute decisions

Strong ability to communicate upwards and across the organization

Ability to read, write and speak English fluently.

Your Background

English proficiency required (C1).

BS or BA in Supply Chain, Logistics, Operations, Industrial Engineering, Systems Engineering, Mathematics, or other related field
