

Early Careers - Operations Maintenance

[Apply Now](#)

Company: SLB

Location: Colombia

Category: other-general

Keeping operations running smoothly takes technical knowledge and superior service. As part of our maintenance team, you'll be a critical part of delivering innovative solutions.

As a **Maintenance Engineer**, you are the critical link between the maintenance organization and our field operations. Your primary responsibility will be to improve workflows and optimize maintenance processes to reduce downtime of our equipment. You will do this by reinforcing your troubleshooting skills and implementing Lean Six Sigma practices and Reliability-Centered Maintenance Methodology, as well as providing input to improve equipment design. We will provide the training to help you become an adept problem-solver who uses the latest technology to deliver exceptional service quality. Responsibilities include: Identifying and capturing opportunities for improvement in equipment maintainability and reliability

Using Lean Six Sigma and Reliability-Centered Maintenance concepts to optimize work processes and adapt maintenance processes

Staying current with latest equipment, technologies and maintenance methods

Championing data and service quality within maintenance organization

Helping to manage planning for equipment and maintenance resources

Applying asset management and maintenance systems data

As an Electrical or Mechanical **Maintenance Technician**, you will analyze problems,

make repairs, and help contribute to an effective, efficient, and safe working environment.

You will complete a comprehensive training program and be supported by your managers to develop the skills you need to succeed in the role. You will be asked to:

Maintain equipment to the highest standards

Improve asset availability through continuous improvement

Help implement reliability practices across the business

Follow a structured development program

Requirements

Meet

Aptitude for hands-on work combined with strong analytical skills

Good verbal and written communication skills

Fluency in written and spoken English
