Financial Systems Sr Analyst

[Apply Now](#)

Company: Zimmer Biomet

Location: Colombia

Category: business-and-financial-operations

JOB DESCRIPTION

At Zimmer Biomet, we believe in pushing the boundaries of innovation and driving our mission forward. As a global medical technology leader for nearly 100 years, a patient's mobility is enhanced by a Zimmer Biomet product or technology every 8 seconds.

As a Zimmer Biomet team member, you will share in our commitment to providing mobility and renewed life to people around the world. To support our talent team, we focus on development opportunities, robust employee resource groups (ERGs), a flexible working environment, location specific competitive total rewards, wellness incentives and a culture of recognition and performance awards. We are committed to creating an environment where every team member feels included, respected, empowered, and recognized.

Who We're Looking For

The Financial Systems Sr Analyst will join a talented global team of tax, accounting, finance, and data professionals and play a critical role in leveraging data to drive business value, improve decision-making processes, and gain a competitive advantage in today's data-driven world. The ideal candidate will enjoy a challenging environment that provides the opportunity to showcase their problem-solving skills, to identify data-related issues and develop appropriate solutions. Candidates must possess the ability to think critically and creatively to solve complex problems for a global tax department operating in today's rapidly changing environment.

Some Of What You'll Do

Assist with the build out of data repositories for use by the global tax team.

Assist with the extraction of financial data from consolidations tools and other ERP systems.

Build and maintain Alteryx workflows using Alteryx Designer and Server.

Analyze large datasets, draw meaningful insights, and make data-driven decisions.

Collaborate with tax team members to brainstorm data solutions to ensure the accuracy and detail needed to complete task.

Cleanse and preprocess the raw data to ensure accuracy, consistency, and completeness.

This includes handling missing values, removing duplicates, standardizing formats, and resolving inconsistencies in the data.

Maintain and develop robust and dynamic validation procedures that provide users and reviewers with confidence in the dataset used being utilized.

Identify and implement process improvements to enhance tax process efficiency and effectiveness, including tax automation and data analysis initiatives.

Create clear and informative workpapers, templates and visualizations to communicate insights effectively.

Engage and collaborate with external advisors where appropriate.

Requirements

English proficiency required (C1).

Bachelor's degree or higher in accounting, finance, or data analytics.

2+ years of experience in data analysis, preferably in a professional services or corporate tax environment.

Strong proficiency in Microsoft Excel is critical for this role.

Proficiency and prior experience with the Microsoft Suite of applications and tools including, but not limited to SharePoint, List, Forms, Power Automate, Visio, Teams, and others.

Proficiency and prior experience with Oracle EPM Cloud, Alteryx Designer and Server, JD

Edwards and other ERP systems is a plus.

Proficiency in SQL or other coding languages and database solutions (PostgreSQL) is a plus.

Excellent analytical and problem-solving skills, with the ability to translate complex data into actionable insights.

Detail-oriented with a high level of accuracy and attention to detail.

Effective communication and collaboration skills, with the ability to work cross-functionally in a team environment.

Ability to manage multiple priorities and deadlines in a fast-paced, remote, and dynamic work environment.

EOE/M/F/Vet/Disability
