Full Stack/Front End Developer

Apply Now

Company: Sell2Rent

Location: Bogota

Category: other-general

This is a remote position. We are seeking a highly skilled and experienced Senior Full Stack/Front End Developer to lead our team of developers and oversee the development of our web applications. The successful candidate will be responsible for planning and deploying MVPs (front and back end, cloud first) and ensuring that all projects are completed on time and to the highest standards. The ideal candidate will have a strong technical background in full-stack development and experience in team management. Key Responsibilities: Lead a team of developers to design and develop high-quality web applications using the latest technologies and frameworks. Collaborate with cross-functional teams to understand business requirements and translate them into technical requirements. Develop and maintain project plans, timelines, and budgets. Ensure that all projects are completed on time, within budget, and to the highest standards. Participate in code reviews, design reviews, and architecture discussions to ensure code quality and consistency. Mentor and coach junior developers to help them grow in their roles and careers. Develop and maintain technical documentation and ensure that the team adheres to coding standards and best practices. Continuously explore new technologies and stay up-to-date with industry trends and developments. Requirements 3-5 years of start-up experience with successful product launches. Bachelor's degree in Computer Science or a related field. 5-7+ years of experience in full stack web development, with a focus on front-end development using HTML, CSS, and JavaScript, and back-end development using Node.js, Python, or Java. Strong understanding of web development concepts and technologies, including RESTful APIs, MVC architecture, microservices, Kubernetes, Snowflake, and cloud database architecture.

Experience with modern front-end frameworks such as React, Angular, or Vue.js. Experience with cPanel, WHS, Laravel, Redis, Postman and Git. Experience leading and managing teams of developers, including setting goals, coaching, and providing feedback. Excellent communication and interpersonal skills. Ability to work in a fast-paced, collaborative environment. Strong problem-solving and critical thinking skills. Experience with cloud technologies, DevOps, and CI/CD pipelines is a plus. Benefits 100% remote work, LATAM only, offering flexibility and convenience. Growth opportunities in real estate careers, fostering professional development in a thriving industry. Part of a skilled, diverse, and geographically spread team committed to innovation and excellence. Join Sell2Rent and be part of a dynamic team shaping the future of real estate. Apply now to embark on a rewarding career path with vast growth opportunities in the real estate sector.

4-5 years
