Java Data Engineer - Colombia

Apply Now

Company: Sonatype

Location: Colombia

Category: computer-and-mathematical

Sonatype is the software supply chain management company. We're on a mission to change how the world innovates by making software development easier. From running the world's largest repository of Java open-source components (Maven Central) to inventing componentized software development and then software supply chain management to creating the only solution that stops malicious open-source malware in its tracks, we're constantly leading the industry while helping thousands of customers manage open source every day.Already used by 15 million developers, we have lofty goals for our technology to be in the hands of every engineering team. And we need you to do that. !Learn more at .We are looking for team members that want to help us change the way the world innovates through software. The Sonatype team has already done this through its contributions to the Maven build system, the Nexus Repository Manager and most recently with the Nexus Lifecycle product suite – literally changing the way the world creates and delivers software across thousands of organizations and millions of developers.That was just the beginning. We need your help so that we can do it again. If you are interested in delivering value across nearly every decision made in the world of software development, to help companies create better and safer software faster, to transform innovation through software, read on.

Who you are and what you'll do:

You'll work in one of our data processing teams to create and manage data pipelines.

You'll work on products that continually ingest data from open source software repositories, aggregate the data, and analyze it.

You'll monitor and observe our data ingesting pipelines in a production environment.

You'll work with data engineers and full stack developers to deliver the data to our customers.

Job Requirements:

3+ years of experience in software engineering.

Very strong ability to speak to technical requirements in English.

You're a strong Java developer.

You have knowledge and experience with some type of database (ex: MySQL, PostgreSQL, MongoDB, Cassandra, ...).

Comfortable speaking and writing English

Preferred skills:

You are comfortable in additional languages (ex: Scala, JavaScript, Groovy, Python, …).

You have knowledge and experience with large scale data tools and techniques (ex:, Spark, Hadoop, HDFS, MapReduce, ZooKeeper...).

You have knowledge and experience with a non relational database (ex: HBase, Cassandra, ...).

You have knowledge and experience working with queues and pipelines (ex: SNS, SQS, RabbitMQ, Kafka, ...).

You have knowledge and experience with big data cloud services (ex: AWS, GCP, Azure, ..).

Our Tech Stack:

Modern Java (17 and 21, plus some Java 8 and 11)

Some Scala, Groovy, and TypeScript

Docker

AWS: ECS/Fargate, EMR, SNS/SQS, RDS, S3, CloudWatch, Athena

HBase, PostgreSQL, MySQL

SparkGit & github

Maven and Jenkins

JUnit 5, mockito, testcontainers

any IDE you like (most on the team use IntelliJ Ultimate)

At Sonatype we value diversity and inclusivity. We offer perks such as parental leave, diversity and inclusion working groups, and flexible working practices to allow our employees to show up as their whole selves. We are an equal opportunity employer and we do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.We support our remote employee experience. While we have offices in the Fulton MD, Tyson's Corner VA, London UK, and Sydney AUS, we are remote first and always have been. We use a number of communication tools to connect across the company, keeping information flowing day to day and meet face-to-face on a targeted basis at organization and team meetups.Thousands of organizations and millions of developers use our software. If you have a passion to improve how the world develops software, Sonatype is the right place for you.At Sonatype, we value diversity and inclusivity. We offer perks such as parental leave, diversity and inclusion working groups, and flexible working practices to allow our employees to show up as their whole selves. We are an equal-opportunity employer, and we do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status. If you have a disability or special need that requires accommodation, please do not hesitate to let us know.#LI-Remote
