### How we work

We are an international team with a hybrid remote work culture and a headquarters office in Munich. At Memtime, we deal with time, which means we also respect yours: Instead of endless meetings and compulsory attendance, we believe in well-designed collaboration that gives us a sense of self-efficacy and allows us to see the impact of our daily work through results.

### Our Product

With our software for automatic activity tracking, we are the technology leader in our segment:

Our software automatically records what you are working on (e.g. emails, documents, websites, etc.) - so you can easily remember for which customers/projects you spent your time.

What makes our software especially employee-friendly is that it stores all data exclusively on the user's device. No monitoring or surveillance features. Complete privacy for the user.

We seamlessly integrate with any project software, ERP system, or billing solution.
