Company: AUTONOMIC SAS

Location: Aburrá Valley

Category: computer-and-mathematical

Description: This entry-level position will provide an opportunity to expand and deepen one's software engineering skills while contributing to a world-class language-learning platform supporting over 1 million students in online education. Working with experienced members of our development team, you will contribute enhancements and bug fixes for applications serving millions of users, develop tools to support internal workflows, learn Ruby on Rails and AWS, and be mentored on development best practices within an agile, test-driven team. Project assignments will be determined by the Software Development Supervisor following our sprint planning practices. You will work directly with other engineers on the team and collaborate with Product Management, QA, Tech Production, and other departments to understand requirements and define solutions. Our engineering projects frequently partner with external development teams in Boston, India, and Brazil, and you will participate in joint planning and status review meetings.

Responsibilities:

- Develop enhancements and bug fixes for a suite of high-traffic B2C applications.
- Create unit and system tests to validate your changes.
- Collaborate with Engineering, Product, and QA teams in scoping, development, and validation of changes.
- Develop scripts and applications to automate internal business workflows.
- Participate in pair-programming and code review exercises within the engineering team.
- Contribute as part of an Agile Scrum process.

Skills:

- Working knowledge of computer networks and core internet technologies (DNS, HTTP/S, HTML, JS, CSS)
- Familiarity with databases, SQL, and object modeling
- Familiarity with pair-programming and code review processes
- Comfort with a command line terminal
- Working knowledge of git and git workflows
- Good communication skills (written

and verbal)-Eagerness to jump-in to new problems and learn new technologiesDetails: -
Scholarship: Associate's degree or equivalent in computerscience -Location: Hybrid from
Medellin 2x3/3x2.. -Type ofcontract: Long Term -English Level: B2+. High level in speaking.-
Experience: From 1 year's experience with an interpreted orobject-oriented programming
language (Python, Ruby, etc.) -SalaryRange: Up to \$4.000.000 COP depending on
experience and profile. -Junior Developer Profesional 1886147253#J-18808-Ljbfrr
