Company: Sell2Rent

Location: Bogota

Category: other-general

This is a remote position. **Company Overview:** Sell2Rent is a groundbreaking startup focused on leveraging AI-driven solutions to redefine the PropTech industry. We're on the hunt for an experienced Startup Architect with hands-on full-stack development experience. If you thrive in fast-paced startup environments and have a passion for cutting-edge technology, we want to hear from you. **Role & Responsibilities:** Lead the design and development of scalable and robust software solutions that leverage AI-driven technologies. Be involved in all aspects of the development lifecycle, from initial design to deployment, ensuring the quality and efficiency of the solutions. Work closely with product managers, designers, and fellow engineers to refine and implement product requirements, fostering a collaborative and agile development environment. Oversee the management and scaling of our cloud infrastructure to ensure optimal performance and security. Design, manage, and optimize Cloud DB systems for high availability and consistency. Develop and manage APIs, utilizing KONG for API gateway functionalities. Architect and implement microservices-based solutions, which are a fundamental part of our technology stack. Manage code versioning using Git and ensure smooth CI/CD pipelines, ensuring rapid and reliable software delivery. Guide the deployment of containerized applications using Kubernetes, contributing to the scalability and reliability of our services. Integrate AI/ML functionalities as required by the product to provide innovative and intelligent solutions. Advocate for and implement TDD practices across the team to ensure software quality and reliability. Build responsive and dynamic front-end interfaces using Angular, ensuring a seamless user experience. Develop efficient and scalable back-end services using Node.js, supporting the functionality of the

applications. Requirements Qualifications: Bachelors or Masters degree in Computer Science or a related discipline. 3-5 years of full-stack development experience, preferably in startup ecosystems. Demonstrated proficiency in AWS, Cloud DBA, and Microservices. Experience with KONG, Git, Kubernetes, AI/ML implementations, and TDD. Strong foundation in CI/CD processes and tools. Proven skills in Angular and Node.js development. Ability to design and manage APIs efficiently. Strong problem-solving mindset with meticulous attention to detail. Capacity to adapt quickly in dynamic startup environments. Exceptional communication skills, both verbal and written. Nice-to-have: Relevant certifications in AWS, Kubernetes, or other mentioned technologies. Prior experience in mentoring or leading development teams. Familiarity with other programming languages or frameworks.

Benefits Long-term growth opportunities with the company. Flexible schedule. 100% remote work environment. A start-up work environment that fosters innovation and creativity. The opportunity to learn about the USA real estate market. Career growth by working with sophisticated business applications. Sell2Rent is committed to diversity and inclusivity, providing equal opportunities for all qualified applicants regardless of race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.

4-5 years

Bachelor's or Master's degree in Computer Science or a related discipline. 3-5 years of full-stack development experience, preferably in startup ecosystems.
