## Live Feed Analyst - Service Provider

[Apply Now](#)

Company: Genius Sports

Location: Medellín

Category: business-and-financial-operations

### A bit about us

Do you want to join one of the world's fastest growing sports technology companies? Genius Sports is at the epicentre of the global network connecting sports, brands and fans through official live data. Our mission is simple. We champion a more sustainable sports data ecosystem that benefits all parties.

We're looking for enthusiastic and ambitious people to join our talented team.

If you see yourself becoming part of a global family building the future of sports entertainment together, then come and grow with us.

We put trust in our people to deliver the difference for our clients around the world. It's why many of the world's largest leagues & federations such as the NFL, English Premier League, FIBA and NCAA choose to work with Genius Sports.

### What will you do?

As a Live Feed Analyst, you will collect and monitor sports data in a live environment, using our top-tier technology to provide fast, accurate, and reliable information with high quality standards to our customers. Our work will be mainly on weekends & experience is not necessary, so this could be your opportunity to forge a career within the sports data industry.

### Main Responsibilities:

Data Input for Live sports events worldwide including EPL, NFL, NBA, NHL, NCAA

Product monitoring & product analysis to react in any case of discrepancy in the provided information compared to various external sources

Provide support to Sports Statistician Network

Working with custom software

To communicate and report any issue encountered to the respective Supervisor

Provide feed integrity compliance

**Required skills:**

Good English level

Good communication skills

Flexible with willingness to adapt in a fast-paced environment

Passion for sports

Good multitasking and proven solving skills

Ability to acquire knowledge quickly and accurately

Attention to detail

Be able to prioritize under pressure

Good command of Microsoft tools and Microsoft Windows
