Company: Johnson Controls

Location: Bogotá

Category: computer-and-mathematical

### **RESPONSIBILITY LEVEL:**

The DX Ducted Systems BE group has prioritized its E-Commerce sales channel as a critical growth engine for the business. Reporting to the senior manager, E-Commerce Platform Architecture and Development, the Magento Web Developer will be responsible for maintaining Ducted Systems E-Commerce Magento 2 platforms while developing and expanding their features and functionality.

### **PRINCIPAL DUTIES:**

Develops, upgrades, and supports multiple responsive E-Commerce websites based on business needs and requirements.

Help maintain existing Magento 2.4.5+ EE E-Commerce platforms and develop updates to HTML, CSS, JS, APIs, and backend databases.

Develop APIs while maintaining the integrity of data structures. Integrated with ERP and reporting tools.

Identify, troubleshoot, and resolve systems defects and/or issues.

Create and advance theme integrations/customizations.

Familiarity with debugging and optimization tools; ability to perform quality assurance tests and ascertain the cause of the problem when performance does not meet standards.

Follows defined processes, methodologies, and procedures and completes all coding documentation.

### **WORK EXPERIENCE REQUIREMENTS :**

Minimum of 5 years of practical B2B experience in full-stack Magento PHP web development.

High level of competency in Magento 2, PHP, JS, MySQL, and SOAP/REST API creation/integrations.

Skilled in transforming designs into semantic and concise HTML, CSS, and JavaScript.

Expert in server-side programming with PHP, AJAX, JavaScript, jQuery, and Web Services.

Experience in developing offset microservices modules integrated that can integrate into Magento 2.

Expert in writing and optimizing SQL statements with knowledge of database indexes.

Strong written and oral communication skills.

Ability to work inside existing team processes and code structures.

Strong analytical thinking, troubleshooting, and problem-solving skills.

Be willing to challenge traditional wisdom and advance innovative ways of addressing business challenges and resolving problems.

Familiarity with distributed architecture & async processes.

Open to pair programming.

### **OTHER EXPERIENCE REQUIREMENTS :**

Fluent in English

### **EDUCATION:**

Bachelor's degree in a related field or equivalent experience.
