Mainframe Modernization Arch, AWS Professional Services

[Apply Now](#)

Company: Amazon Web Services Colombia S.A.S. - E40

Location: Bogotá

Category: computer-and-mathematical

Amazon Web Services (AWS) Professional Services engage in a wide variety of projects for customers and partners, providing collective experience from across the AWS customer base and are obsessed about strong success for the Customer. Our team collaborates across the entire AWS organization to bring access to product and service teams, to get the right solution delivered and drive feature innovation based upon customer needs.

Basic Qualifications:

- 5+ years of hands-on technical experience with mainframe, non-x86 legacy systems and with technologies such as COBOL, JCL, CICS, DB2 for z/OS, Assembler, PL/I, Java, Rexx, flat/sequential files, GDGs, and VSAM; Prior experience with leading mainframe application modernization initiatives.
- Familiar with major Mainframe migration and modernization tools in the industry.
- Knowledge of cloud migrations approaches and patterns.
- 8+ years of experience designing architectures and solutions for mission-critical, large-scale transaction processing and batch applications on Mainframe systems.
- Fluent in Portuguese and English. Spanish is a plus.

Preferred Qualifications:

BS level technical degree or equivalent professional experience.

Experience with mainframe data migration, and with integrating distributed systems

applications with applications on the mainframe.

Experience with one modern application framework (Spring, Angular, React, Vue).

Experience with tools for mainframe code analysis, code re-hosting or emulation.

We are open to hiring candidates to work out of one of the following locations:

Bogota, COL | Medellin, COL
