

## Middle/Senior Full Stack Developer (AdTech)

[Apply Now](#)

Company: Sigma Software

Location: Colombia

Category: architecture-and-engineering

### Overview

#### Required skills

JavaScript / strong TypeScript / strong Node.js / strong React / strong English / strong

We are looking for an experienced Senior Full Stack Developer to join our Stellar team!

We are building a Competence Center where we stay focused on exploring different domains to become the industry's best-in-class specialists. If you can easily learn new technologies, see the "big picture," strive for high-quality solutions, and work without supervision, it could be a perfect match.

We view technology as a tool and aren't religious about it. We put these tools in service of our customers and love it when a hard problem can be solved in a simple, beautiful, and cost-effective way. This is what drives our technology choices today and will drive our choices tomorrow and the day after.

By joining us, you will:

have the possibility to deep dive into a very exciting and challenging domain – Advertising suggest improvements in all engineering and architectural aspects of the projects

become a part of the core team, that works with pre-sale activities and develop technical expertise in our team

improve own qualification within areas of expertise at various training courses, mentoring circles, and other educational events

#### Requirements

#### Requirements

4+ years of software engineering experience

Excellent knowledge of JavaScript (TypeScript, Node.js)

Solid experience with Python or Golang

Excellent knowledge of React.js or any other FE framework

Good level of experience with clouds (AWS or GCP)

Strong estimation skills, ability to come up with solutions, pros/cons

Strong knowledge of algorithms and data structures

Experience with designing, implementing, and shipping rich web applications

Expert in documentation, Software Development Lifecycle, and ALM Tools

Strong knowledge of functional programming concepts and other programming paradigms

At least an Upper-Intermediate level of English

Openness to working and collaborating in a multidisciplinary and multicultural team
