Overview

Microsoft's mission is to empower every person and organization on the planet to achieve more. If you join the M365 Core Design Studio, you will help contribute to this mission by designing world-class AI and cloud-driven experiences across M365 apps that empower our diverse and global enterprise user base. This work involves building upon classic interaction design as well as pioneering new ways to interact with product through AI. You will help to deliver deep customer value across M365 products inclusive of Windows, Edge, Copilot and our core productivity suite. M365 Core Design Studio fosters a healthy incubation culture that embraces ambiguity, moves with agility, and emphasizes human value at the center of all product thinking. We seek candidates that champion inclusiveness and deep collaboration through curiosity, compassion, and humility.

As a Principal Design Manager, you will play a central role in mentoring the team, creating a positive work environment, and an inclusive culture. You will partner with technology and business counterparts to deliver thoughtful, integrated design solutions through hands-on work and by defining/driving responsibilities of individual team members. You will be expected to deliver clarity across a complex and shifting product landscape, using best-in-class storytelling capabilities, deep problem-solving and critical-thinking skills to simplify complex ideas into well-articulated concepts that express customer needs and motivations.
