Company: Confidential

Location: Bello

Category: computer-and-mathematical

We want you on our team

We are a leading telemedicine organization, founded in 2006, committed to transforming healthcare delivery. We strive to make it more accessible, affordable and of the highest quality. Our digital platform is a benchmark in the health industry, offering services from urgent care and behavioral health to women's health and nutritional advice.

We are currently looking for a **QA Automation Engineer** to form our work team.

Who are we looking for?

We are looking for people who are passionate about health innovation, committed to excellence and who want to make healthcare more accessible. We value diversity and believe it enriches our mission.

What are the contractual benefits?

Hybrid work in the cities of Bogotá or Medellín

Indefinite contract with all legal benefits.

Basic Salary between COP 8M and \$12M (Depending on your experience and seniority).

Possibility of belonging to an important multinational.

Competitive Benefits: Our comprehensive benefits package includes health, wellness, and flexible work options.

What requirements must you meet?

Demonstrable experience of more than 3 years in Automated Testing.

Knowledge of Python, Java or JavaScript automation frameworks.

Experience in any of the cloud service providers AWS, azure, GCP.

Experience in object-oriented programming languages, C#, Java, Javascript or Python.

Experience in Relational and Non-Relational Databases.

Experience in Automated Testing in: API/Web Services, Web, Mobile.

Experience in automation frameworks such as Selenium, Appium and TestNG.

Why work with us?

Breakthrough Impact: Be part of a team using cutting-edge technology to make a real difference in global health.

Admired company culture: We pride ourselves on our inclusive and motivating work culture.

Work-life balance: We promote a healthy balance between personal and work life, understanding its importance for well-being and productivity.

Professional Development: We offer ample opportunities for growth and development.

Collaborative environment: Our work environment encourages collaboration, creativity and continuous innovation.

Skills

Proactivity.

Teamwork.

Leadership.

Planning Capacity.

Excellent relationship.
