

## QA Automation Tester with Salesforce - Colombia

[Apply Now](#)

Company: VRP Consulting

Location: Colombia

Category: computer-and-mathematical

### Job Description

We're looking for a talented and motivated Automation QA Engineer to join our constantly growing international delivery teams. Be part of something huge!

At VRP Consulting, you'll have the chance to work on cutting-edge projects with some of the brightest minds in the Salesforce industry. You'll also be part of a collaborative and supportive team that's committed to helping you grow.

So if you're looking for a company working on solutions that empower more than 150,000 businesses worldwide, and are excited to work on a mission-critical project that only a few people in the world had the chance to do - apply now!

### Responsibilities:

- Close cooperation with Product Owners and Development team defining technical requirements

- Increasing test coverage and automating manual scenarios

- Designing, implementing and maintaining QA Testing Frameworks

- Reporting on bugs and their status

- Collaborating with developers in order to solve existing issues

## Qualifications

2+ years of demonstrable experience in leading test strategy, test plan and test execution as QE/SDET lead

2+ years of experience with Selenium based automation and its ecosystem (TestNG/Junit, Maven/Gradle, Cross-browser test etc.)

2+ years of experience with building CICD pipelines and quality gates like SonarQube, Checkmarx and PMD

Experience in testing mobile/web/desktop applications on common platforms

Proficient in at least one of the common OO languages , including Python, Java, etc

Proficient in SOAP/Rest API testing and automation - Postman or any other tool

Experience with TDD and BDD

Experience with JIRA/TestRail or any TCM tools

Experience with Performance testing and automation

## Additional Information

Cooperation on B2B-contract basis

Work for the US time-zone
