Company: Baker Hughes

Location: Neiva

Category: other-general

Intern/Co-op

University Internships – 2023 opportunities

Would you like the opportunity to work in a global energy company?

Do you enjoy taking on challenging projects?

Join our innovating Internship Program

The Baker Hughes Internship is designed to enable undergraduates pursuing a Bachelor's degree to gain hands-on work experience as the foundation of their professional lives. Our internships will give you first-hand insights into the processes, systems and practices that are aligned to ensure customer needs are met through flawless execution and the application of leading-edge technology.

Partner with the best

Our internship will provide you with the opportunity to become familiar with a Health, Safety and Environment (HS&E). You'll participate in technically focused training, team meetings and work on projects and present your results. During your internship you will be supported by your manager who will ensure that you have a valuable learning experience.

As an Intern, you will be:

Receiving coaching and mentoring to enable you to complete assignments and projects to develop your learning and skillset

Completing internal projects to deliver customer outcomes and identify business improvements

Learning internal software to assist with the completion of projects and tasks

Collaborating with cross-functional teams and interns to interact and network with global business leaders

Applying Health, Safety and Environment (HS&E) standards and procedures in all situations to ensure compliance is maintained

Pursuing your development through different best practices and projects inside the organization

Able to learn and develop your soft skills in a professional environment, preparing you for the market or for our Entry Level positions after your internship

Fuel your passion

To be successful in this role you should:

Be currently enrolled in a bachelor's or master's degree in an **Engineering or Math related major** .

Have maintained a GPA grade greater than or equal to 3.0 out of 4.0 or the equivalent in your country

Be in your 3rd or 4th year of degree studies and have the availability to stay in the internship for two years.

Advanced English (Both oral and written)

Have the legal right to work without restrictions in Colombia

Be prepared to enrol yourself with different activities and projects, being owner of them and having an active voice to be part of the team and the company in a large scale

As an Intern You Will

As a Reliability Engineering Intern you will be part of the Artificial Lift Services Product Regional reliability team to support the COLOMBIA operation. You will focus efforts on running life improvement actions for Baker Hughes products in a cross functional setting through failure analysis, risk management, process improvement, and life cycle asset management and cost of failure.

Desired Characteristics

Be fluent in English (oral and written) and have excellent all-round communication skills

Have knowledge in Microsoft office package

Solid knowledge in Statistics and Data visualization

Extremely self-organized and time-task priority skill

Desirable graphic communication skill Photography and videos
