## Ruby Developer - Full-time, Remote

[Apply Now](#)

Company: Bluelight Consulting LLC

Location: Barranquilla

Category: computer-and-mathematical

Are you an experienced software developer with deep experience building and shipping amazing products? Do you have high standards when it comes to code quality and user experiences? Are you the best developer on your team? Are you ready to work alongside the best engineers in the world for name-brand, industry-leading companies? Bluelight Consulting is seeking a Ruby developer to join its growing team. As a developer at Bluelight Consulting, you will help our incredible clients achieve their technical goals in one of two ways: 1) Team Augmentation: You will integrate yourself directly into our client's team and work alongside their existing engineers on a daily basis. 2) Design & Build: You will work on a Bluelight Consulting development team to build and ship greenfield applications for our clients.

**What We Are Looking For**

- Over 7 years of software development experience working on both client and server side code.
- Experience with Ruby on Rails and various JavaScript Frameworks.
- Experience with relational databases and SQL.
- Solid understanding of object-oriented design principles.
- Understanding of CSS.
- Familiarity with Git and GitHub.
- Knowledge of service-oriented architecture and design.
- Excellent communication and interpersonal skills, both written and verbal.
- Self-learning and development of skills.
- Strong work ethic and desire to consistently meet deadlines.
- A positive mindset and can-do attitude.
- Forensic attention to detail.
- You're passionate about software development... it's not just your career, it's your hobby. You're constantly striving to learn new things and improve. You follow industry news, regularly tinker with new technologies, and read books and blogs to keep your skills current.
- Ability to consistently work 40 hours per week.

**What You'll Be Doing**

- Work as part of a small team, which

will include other developers, a project manager, a QA professional, and a designer. -  
Complete two-week sprints, participate in sprint retrospectives, and do daily standups. -  
Assist with building estimates. - Interface with clients via Slack, Zoom, and email. -  
Work with modern tools including Jira, Slack, GitHub, Google Docs, etc. - Be part of  
a community of developers that share knowledge and help each other as problems arise. -  
Follow Bluelight's detailed development process. Company Benefits - Competitive salary  
and bonuses, including performance-based salary increases. - Generous paid-time-off  
policy - Technology / Office stipend - Health Coverage - Flexible working hours - Work  
remotely - Continuing education, training, conferences - Company-sponsored  
coursework, exams, and certifications Being a software consultant is a fun, challenging,  
and rewarding career choice for developers. Your contributions are highly valued by clients,  
and the work you do often has a direct and significant impact on the client's business. You  
will have the chance to work on a variety of projects for our incredible clients, which will help you  
quickly improve as a consultant and software engineer. You will get to work with modern  
languages and frameworks alongside some of the best developers in the world! So if you  
have the desire to be a part of an exciting, challenging, rapidly-growing software consultancy,  
please apply. #LI-Remote #J-18808-Ljbffr
