

Ruby on Rails Integration Specialist

[Apply Now](#)

Company: Wolf

Location: Cali

Category: computer-and-mathematical

Company Overview:

At WOLF, we're not the furry kind, we're the startup kind. We've connected over 200,000 job seekers, spanning various industries from hospitals to restaurants, all aboard our platform. We've been through Techstars, expanded into three countries, and guess what? We're venture-backed and thriving! As we continue our journey of growth and innovation, we're on the lookout for a talented Integration Specialist to join our engineering team in Colombia.

Responsibilities:

Design and implement integrations between our platform and third-party systems such as Salesforce, TargetRecruit, and NetSuite.

Develop custom APIs and web services to facilitate seamless data exchange and communication between systems.

Ensure data synchronization and consistency across integrated platforms.

Troubleshoot and debug integration issues, implementing effective solutions promptly.

Implement event sourcing, pub/sub messaging, and asynchronous communication to build scalable and resilient systems.

Monitor, test, and optimize microservices to ensure reliability, performance, and fault tolerance.

What Do You Get?

A dynamic work environment where the day flies by with exciting challenges.

Competitive compensation with bonuses to keep your wallet happy.

Opportunities to make a meaningful impact and drive positive change while sipping on your coffee.

Room for rapid career growth and advancement opportunities.

You Need:

At least 4 years of work experience as a Ruby developer on production applications.

Experience building B2B SaaS integrations, demonstrating an understanding of complex data exchange and communication requirements (Minimum 1 year of Salesforce, TargetRecruit, and/or NetSuite)

Familiarity with serverless architecture, preferably Lambda & DynamoDB.

Proficiency in code versioning tools such as Git, Github, SVN, and Mercurial.

Knowledge of testing tools to ensure product quality.

Bachelor's degree in Computer Science, Engineering, or related field.

Advanced level of English proficiency.
