Company: WIZELINE

Location: Colombia

Category: computer-and-mathematical

Community Impact

We are invested in making a positive impact in our communities. That's why we created Wizeline Academy, a free, community-based education program that teaches high-value skills to workers looking to advance their tech industry careers. To date, Academy has served more than 32,000 students with 250 instructors across 194 courses. Wizeliners have the opportunity to upskill by taking Academy courses and can also share their expertise by delivering classes to students.

What You Will Bring to the Team

As a Software Engineer at Wizeline, you will advocate for the use of cutting-edge technology to build intelligent and scalable products. You will act as a technology partner for our clients from inception to completion. By understanding their needs and translating requirements into world-class design, you will be responsible for delivering high-quality applications.

Partner with multidisciplinary teams located across the world (Technical Writing, User Experience, and Project Management) to solve challenging problems. As a relationship builder with direct communication with stakeholders, you will also drive internal initiatives and objectives.

You will work on projects that enable you to develop your skills and gain exposure to multinational brands.

We promote having fun and learning continuously, and we are proud of working with the brightest minds in the industry.

Are you a Fit?

Must Haves:

To be successful in this role, you need:

Good experience with Scala. (Minimum 5 years experience).

Deeper development experience in Backend (Java).

Akka

Play Framework

Willingness to jump into other languages

Logistics or statistical queuing models a plus.

Responsibilities:

Writing clean, high-quality, high-performance, maintainable code

Develop and support software including applications, database integration, interfaces, and new functionality enhancements

Coordinate cross-functionally to insure project meets business objectives and compliance standards

Support test and deployment of new products and features

Participate in code reviews

Nice to Haves:

Some nice-to-have qualities that will further help you are:

Experience working with AWS.

Being a DevOps advocate, with working knowledge of Docker, Jenkins.

A code repository you can share with the team, showcasing your contributions to open source projects.

BS/MS in Computer Science, Engineering, or a related subject.

Familiar to OOP

Our Benefits and Perks

We offer competitive compensation and employee-centric benefits, including industry-leading maternity and paternity leave, wellness programs, and remote work opportunities. In recognition of our superb employee benefits, we even qualified for the Súper Espacios award in 2020.

Our Global Family

To support the global nature of our business and help our employees grow beyond their technical skills, we offer free virtual English and Spanish language classes as well as provide immigration support when applicable. Prior to COVID-19, we had a robust Work Abroad program in place, which we plan to continue once it's safe to do so.

#AllAreWelcomeHere

Wizeline creates and fosters a diverse, inclusive, and harassment-free workplace where everyone can achieve their potential. All applicants will be considered for employment regardless of race, color, religion, sex, sexual orientation, gender identity, national origin, veteran, or disability status.
