Senior ABAP Software Engineer for SAP S/4HANA for FPSL, LATAM region

[Apply Now](#)

Company: SAP Pioneer

Location: Colombia

Category: computer-and-mathematical

Do you want to be part of a new, fast-growing global company delivering the next generation of software solutions for the financial services industry?

As a spin-off from SAP (a market leader in enterprise application software), SAP Pioneer builds on a heritage of outstanding technology and a deep understanding of corporate and consumer demands. This gives us a head start to bring financial services to the next level with innovative software solutions and platforms. We are helping companies in the financial services industry to achieve speed, scalability, and cost-efficiency through digital business innovation, cloud technology, and solutions that cover banking and insurance processes end-to-end.

SAP Pioneer is a global company with subsidiaries in Germany, Austria, Switzerland, UK, UAE, Canada, US, Brazil, Mexico, Japan, Australia, India, Singapore. Our rapid growth, great team and lean organization make SAP Pioneer a great place to accelerate your career!

YOUR RESPONSIBILITIES

Join a team that promotes an empowered culture, allowing all employees the ability to contribute and to make a difference. We value people that do what it takes to deliver superior results to our customers. We embrace innovative technology and new ideas. We are an Agile shop, constantly tinkering with our process to bring the most value to the customer while making all our lives better.

The customer base of our product SAP S/4HANA financial products subledger are banks, insurers and fintech companies. These companies face tremendous change of their business driven by increasing digitalization and mega trends such as cloud-based information

infrastructure or artificial intelligence.

Our “S/4 HANA for Financial Products Subledger” is one of the hottest products in the market to support our FSI customers in IFRS 9 and IFRS 17 compliant accounting and reporting.

We are looking for new team members to join us in our success story!

As a developer in our scrum team you are responsible for developing high-quality software following agile practices and in close collaboration with our international customers.

Amongst others, your tasks include to understand the customer requirements

translate it into software design

code it and test it

support our customers to adopt it

mentor junior and intermediate developers

Requirements
