

## Senior Data Integration Specialist

[Apply Now](#)

Company: Epam

Location: Medellín

Category: computer-and-mathematical

### Description

EPAM is a leading global provider of digital platform engineering and development services. We are committed to having a positive impact on our customers, our employees, and our communities. We embrace a dynamic and inclusive culture. Here you will collaborate with multi-national teams, contribute to a myriad of innovative projects that deliver the most creative and cutting-edge solutions, and have an opportunity to continuously learn and grow. No matter where you are located, you will join a dedicated, creative, and diverse community that will help you discover your fullest potential.

We are looking for a Senior Data Integration Specialist to join our team and work on a cutting-edge project that involves developing ETL pipelines and providing ad-hoc analysis for our client.

Your expertise in SQL and Python is essential for this role. You will be working with a team of experts in a dynamic and fast-paced environment where you will have the opportunity to develop your leadership and soft skills.

This role requires working from the office in Bogota or Medellin.

**#LI-AP13**

### Responsibilities

Develop and maintain ETL pipelines using Dataswarm pipelines with Spark

Write complex SQL queries for ad-hoc analysis

Communicate with clients onsite to understand their requirements and propose the best solutions and approaches

Collaborate with cross-functional teams to ensure successful project delivery

Provide technical leadership and mentorship to junior members of the team

Ensure the quality and accuracy of data integration processes

### **Requirements**

Bachelor's or Master's degree in Computer Science, Information Technology, or a related field

Minimum of 3 years of experience in data integration, ETL processes, and data modeling

Expert in SQL and Python for querying and manipulating data

Strong knowledge of ETL/ELT solutions and production experience with any ETL tool

Experience working with Big Data tools such as Hadoop, Hive, and PrestoDB

Familiarity with databases such as MySQL, Oracle, and Scuba In-Memory DB

Experience with Version Control Systems such as Mercurial, Git, and DaiQuery

Experience with CDM (DDT) - Central Data Manager, Scheduled Jobs Monitor, DataSwarm, DB UI, Ent UI, and iData

Knowledge of Diffs for code research/compare and using VS Code and Bento/Jupyter

Good verbal and written communication skills in English at a B2 level

### **Nice to have**

Hands-on experience and understanding of the Software Development Life Cycle (SDLC)

Experience with Spark and Presto query engine production

Experience with Tableau Desktop/Server production

### **We offer**
