Senior Full Stack Developer

Apply Now

Company: NielsenIQ

Location: Bogotá

Category: architecture-and-engineering

Company Description

REFID639744

Nielsen Brandbank Software Developers work collaboratively alongside other development team members, Product Owners & Scrum Masters to realize business goals

Job Description

Working within dedicated domains, the Senior Full Stack Developer using an incremental delivery approach - is responsible for guiding the team as one in developing new and existing products by understanding and translating backlog items into working solutions.

RESPONSIBILITIES

Approach work from an Agile mindset applying practices and principles wherever possible

Work with the Product Owner and Scrum Master in coaching and mentoring other team members to help them embrace the Agile mindset

Expert in their domain

Attend and participate in all Sprint events to achieve desired outcomes, taking a leading role where required to ensure events have a good outcome

Interact with stakeholders/Product Owner to clarify requirements and provide input into the creation of User Stories

Manage own tasks

Collaborate closely with all team members to take a shared responsibility for estimation/forecasting, sprint planning and sprint success

Take responsibility for the quality of the team's code - writing unit tests and conduct unit testing where applicable

Maintain broader code quality through peer code reviews

Perform live releases in line with team release schedule

Identify improvement opportunities and agree on actionable improvements

Provide 2nd/3rd line support within his/her domain environment

Be available, on a best endeavors basis, to support the resolution of Severity 1 and 2 incidents for applications owned by your team between 7am and 10pm local time on local working days as well as providing retrospective feedback

Qualifications

Bachelor's Degree in a relevant field of work or equivalent professional qualification or experience

Intermediate-Advanced English fluency

Strong hands on technical skills across some or all of the Microsoft Stack and other key technologies:

NET (C# preferable)

MS Azure

SQL Server

Javascript / Typescript (React preferable)

ASP, MVC, WPF

Unit Testing (NUnit, MSTest, Moq)

GIT

XML, JSON
