Category: architecture-and-engineering

About Anovium Anovium is a product-focused digitalinnovation agency and consultancy. We empower companies to innovateand harness technology. Anovium is a sister organization of aventure studio, which builds out ideas into high-growth companies.This provides unique exposure to the agency in emerging markets.Our collective mission is to empower people with technology todayto solve the problems of tomorrow. We are innovators, tinkerers,visionaries, entrepreneurs, and problem-solvers. Our team isconstantly iterating to improve solutions and ultimately the humanexperience. » Our Culture At Anovium, we improve ourselves whileusing technology to improve the world around us. We work with fun,talented people who embrace individuality, diversity, andinclusion. We champion intuitive experiences, elegance, andautomation. We believe collaboration and constant human feedback iscritical to unlocking value and long-term success. We challengewhat we know and how we view problems. » Who We Hire We hiretalented creators and doers who are aligned with our goal: ImproveTomorrow, Today™ As a part of the Anovium team, you should have avision for the future and an irrepressible desire to make itreality. You should strive to deliver products that meaningfullyimprove the lives of others. And you should constantly be learningto improve yourself. All Anovium employees are skilled in takingcalculated risks and pushing the envelope as well as swiftlypivoting and iterating when faced with failure. Senior Full StackPython/FastApi/React Engineer TL/DR: You're responsible forshipping amazing products. You're a wizard at your craft, whilealso being a team player that can guide the team to successfuldeliveries. You are highly skilled at Python, FastAPI, and Reactwebapplication development. The Opportunity We are looking for strongdevelopers to

augment our growing team and maintain our highstandards of quality in delivery. Examples of projects you mightwork on include: transportation management systems, med techsolutions, digital consumer aid products, legal tech products,productivity solutions, web3, etc. What You'll Do - Ship ValueFast. You'll move fast, constantly shipping value consisting ofclean, empathetic, efficient code. Bugs happen - own them; fixthem. - Contribute Broadly. You'll work with and contribute toproduct, design, engineering and architecture, applying your skillsand insights to plan, develop, and own new tasks. - Own theProcess. You'll own responsibility for your delivery and execution.You'll forge new paths forward while not waiting to be handheld. -Improve and Grow. You'll be learning, improving, and teachingalongside others who love to do the same. You'll lead and giveconstructive feedback. You'll challenge both yourself and your teamas they challenge you. - Make an Impact. You'll be working withsmall teams. The things you do will have a large impact on shapingthe delivery of products and features. Who You Are - You love tobuild and deliver. You're obsessed with creation and delivery ofvalue. - You are a wizard. You have end-to-end experience buildingout web and/or mobile applications. Others look up to and respectyour technical skill sets. Your past experiences will help guideyou and your team through challenges. - You thrive in fast-pacedenvironments. This is an environment of high iteration. There isconstant change and sometimes little guidance. You aren't held backby the fear of being wrong or making a mistake. - You areempathetic for developers and consumers. You build with future andcurrent developers in mind – making it easy for others (or evenyourself!) to pick up where you left off. You also build with yourconsumer in mind. - You diagnose problems. You challenge prevailingassumptions and dig to the root of issues. You solve problemsrather than treat symptoms. - You're a strong leader.You'repassionate. You take pride in your craftsmanship and are passionateabout quality software engineering. - You are candid. You'recandid, but respectful. You share pertinent information, even whendifficult. You admit mistakes. You openly disagree and explain why.What You Have - Experiences: - 5+ years of building and shippingproduction-quality software systems - Backend technologies likePython/FastApi, Node.js/TypeScript, C#/.Net, or Java/SpringFrontendtechnologies like React.js or Vue.js. (We will prioritizecandidates with heavy Python/FastApi experience for this particularopening.) - Building human-centered user experiences - Workingcross-functionally with managers, designers, and engineers -Creating self documenting, modular, testable, performant code. -Deep understanding of the whole engineering stack, from database,servers, to UI (Bonus) - Experience with React Native, GraphQL,DevOps, or

CI/CD. - Knowledgeable in ML/LLMs Ecosystems You MayWork In - Different projects have a different combination of thefollowing: - General. JavaScript (specifically, we favorTypeScript) - Front End. React.js, Vue.js - Back End. Node.js,Python, C#/.Net, Java/Spring - Mobile. React Native - Desktop.Electron - DB. MySQL, MongoDB - API. REST, GraphQL - AI/ML. Python- Other. LookML, Docker & more Excited but Not a 100% Fit? Weare committed to building a diverse and inclusive workforce. Ifyou're excited about this role, but do not meet 100% of thequalifications listed above, we encourage you to apply. » How WeSupport Our Team Remote First We trust you to take care of yourresponsibilities wherever, whenever. Experience We strive to makeworking on our team a top experience. That being said, working instartup environments is not for the faint of heart. Those who needto be told what to do will not do well here, but those with anentrepreneurial spirit will thrive. Your integration into the teamis important to us. Commitment to Personal Growth and ExplorationWe invest in your development and operate in an environment thatfosters growth and exploration. We're a Team We champion teams thatare excellent at communication and collaboration. Your integrationinto the team is important to us. » Equal Opportunity &Affirmative Action Anovium is proud to be an Equal Opportunity andAffirmative Action employer. We do not discriminate based uponrace, religion, color, national origin, sex (including pregnancy,childbirth, or related medical conditions), sexual orientation,gender, gender identity, gender expression, transgender status,sexual stereotypes, age, status as a protected veteran, status asan individual with a disability, or other applicable legallyprotected characteristics. #J-18808-Ljbffr
