[Apply Now](#)

Company: Support Shepherd

Location: Bogotá

Category: computer-and-mathematical

Position: Full - Stack Developer (possible Name: Senior NestJS/NextJS Developer)

Working Hours: European Time Zone (TBD)

Holidays: TBD

Salary: USD 3000 - 4000

About the Company:

Support Shepherd is a growing company that specializes in providing customer support solutions for businesses in various industries. Our team is dedicated to helping our clients deliver exceptional customer experiences by providing reliable and efficient support services.

About the Role:

We are seeking an experienced Senior Software Developer to join our team. You will be focused on managing clusters for AI training for our diverse range of customers. The successful candidate will play a crucial role in the evolution of our platform, ensuring robust coding practices, efficient deployment processes, and seamless integration of the NestJS-NextJS stack.

Responsibilities:

Utilize a minimum of 8 years of coding experience to develop and maintain a state-of-the-art AI cluster management platform.

Leverage a minimum of 3 years of experience in NestJS to architect and implement scalable and efficient solutions.

Demonstrate a perfect understanding of the NestJS-NextJS stack, ensuring

seamless integration and optimal performance.

Showcase expertise in deploying code with efficiency and precision.

Possess knowledge and practical experience in DevOps practices.

Collaborate with cross-functional teams to ensure the successful implementation of AI cluster management solutions.

Requirements

Minimum of 8 years of professional experience in coding.

Minimum of 3 years of hands-on experience in NestJS.

Perfect understanding of the NestJS-NextJS stack.

Demonstrated capacity to deploy code effectively.

Knowledge and practical experience in DevOps.

Familiarity with AI and machine learning concepts is a plus.
