About Nubank

Nu was born in 2013 with the mission to fight complexity to empower people in their daily lives by reinventing financial services. We are one of the worlds largest digital financial services platforms, serving 90 million customers across Brazil, Mexico, and Colombia. As one of the leading technology companies in the world, Nu leverages proprietary technologies and innovative business practices to create new financial solutions and experiences for individuals and SMEs that are simple, intuitive, convenient, low-cost, empowering, and human. Guided by its mission, Nu is fostering access to financial services across Latin America.

Our Product Operations Team

At Nubank, many things are done from scratch. We understood that to offer the most transparent, fair, and intuitive financial products and services; we had to recreate them from our early days completely. We needed professionals who could navigate from business strategy to project management for this endeavor, from risk assessment to cross-team alignment. That's how and why our Business Architect team was born. A quarter Product Manager, a quarter Business Analyst, a quarter Management Advisor and a quarter Something else? Business Architects are the ultimate owners of Nubank's operations, ensuring that projects and processes run efficiently.

You can read more about it in our and get some insights into how we work.
