Senior Python Engineer - AA

[Apply Now](#)

Company: Gorilla Logic

Location: Colombia

Category: architecture-and-engineering

Gorilla Logic provides nearshore Agile teams to Fortune 500 and SMB companies, bringing unparalleled expertise in the delivery of full-stack web, mobile, and enterprise applications. Our highly collaborative Agile Gorillas are uniquely qualified to implement complex software initiatives. With offices in the United States, Costa Rica, Colombia and Mexico, Gorilla Logic helps clients gain competitive advantages to achieve results faster. **Senior Backend Developer (Python)** Gorilla Logic is looking for a Senior Backend Developer with exceptional web services and other backend development skills to work as a member of an Agile team responsible for building and maintaining our client's web and/or mobile applications. Our environment will require you to work effectively with your teammates, of course. But your success will be measured by how well you couple critical thinking with self-motivation, enthusiasm, and determination. **Responsibilities** *Work with an agile team to build, maintain, and optimize our client's applications* Mentor fellow developers* Work with DevOps and QA to build a quality-focused CI/CD pipeline* Responsible for code reviews, testing, and delivery of high-quality maintainable code* Work in an Agile environment to define, estimate, and work user stories* Proficient English and communications skills required* Good analytical thinking and problem-solving skills **Technical Requirements** *Bachelor's degree in Computer Science, Engineering, or equivalent experience* 4+ years of backend development experience with Python* Experience in writing tests in Pytest, Nostest* REST API design and implementation* Self-starter and takes ownership **Bonus Skills** *Experience with Kotlin* Familiarity with Chronosphere for observability
