Senior Test Engineer Automation (.NET, C#, Java) – OP01013-02

Are you in Colombia, Brazil, Argentina, Chile, or Costa Rica? Join us as we actively recruit in these locations, offering a comfortable remote environment. Submit your CV in English, and we'll get back to you!We invite a highly competent and meticulous Senior Test Engineer Automation to join our team and contribute to the quality and improvement of an interesting project in the PoS domain. The client's product is a robust and cohesive billing solution that allows merchants to offer their customers a variety of convenient and seamless payment options.

What's in it for you:

Get a vast amount of new knowledge and practical expertise in the field of mobile backend testing

Gain specific knowledge in the PoS domain and be a valuable contributor to an enterprise-level solution

Have an opportunity to set up a number of QA processes from scratch, showcasing your leadership and problem-solving abilities

Is that you?

5+ years' commercial experience in automation testing and software quality control & assurance; good knowledge of QA processes

Experience in at least one programming language, such as C# or Java

Hands-on experience with testing backend software code

Experience in automated API and performance testing (creating and manipulating large data sets)

Solid knowledge of system testing best practices and methodologies

Profound understanding of Microservices architecture and system integration principles

Good understanding of mobile SDLC, with a focus on its backend portion

Upper-Intermediate English level

Desirable:

Experience collaborating with remote teams

Degree in Computer Science or a related field

Experience with at least one cloud service provider

Key responsibilities and your contribution

In this role, you'll be responsible for setting up a testing framework from scratch, automating unit tests in all repositories, and migrating various repositories from the on-premise instance to another company's instance.

Collaborate with US-based product and engineering Scrum teams directly

Work together with the team on defining, estimating, and delivering scope on time

Set up code coverage reports

Ensure unit tests are covering happy paths and failure paths

Set up 'sanity' projects (pull in the latest release, build, and verify high-level functionality)

Build out a full suite of test cases added to the project of choice

Perform manual testing of mobile applications through example apps

Explore additional ways to automate or extend coverage

What's working at Dev.Pro like?

Dev.Pro is a US-based outsource company with an ambitious and creative mindset that has been delivering superior software products since 2011. Known for its strong human focus, Dev.Pro promotes a work environment that is fair, inclusive, open-minded, and friendly toward people of every race, religion, gender, cultural background, marital/parental status, etc. By joining Dev.Pro, you'll feel what it's like to grow with professionals who support your journey.

Maintain a healthy work-life balance with 30 paid rest days per year to use as holidays/vacation/other on the desired and requested dates

Get a health insurance package fully compensated by Dev.Pro

Grow by learning: you have a chance to shift your career path, access English lessons, DP University educational flows, and other educational initiatives

Make sure the compensation matches your efforts: we provide payments in US dollars and cover overtime hours

Join fun online activities and team-building events

Get continuous remote HR and payroll support

Our next steps:

Submit a CV in English —   Intro call with a Recruiter —   Internal interview —   Client interview —   Offer
