Attreble.ai , we're working to help LATAM companies to engage withtheir today's mobile-first users. Customer communication in LATAMused to be based on email, SMS, phone calls. Now, it is based onmobile channels such as WhatsApp, Instagram, Facebook Messenger.We're working hard to help companies effectively embrace thetransition. If you join us, you'll be an early team member helpingus shape:

- Our company culture
- Our engineering culture
- Thevision and execution strategy of our products

Engineers on the teamtoday:

- Work in Python/React primarily
- Autonomously figure outthe solutions to their challenges
- Enjoy being a generalist andare not tied down to a specific programming language
- Debugproduction issues across services and levels of the stack
- Arenaturally curious and willing to take a step to learn somethingthey don't have experience in
- Collaborate with everyone on theteam: engineers, customer-facing teams, product folks

Skills &Experience

- No previous experience as a software engineer required-
- A fundamental understanding of distributed systems
- You have aproven grasp of Computer Science fundamentals and have a stronginterest in building products
- Experience as a generalist workingon frontend or backend to provide the best solutions for our users,even single-user systems

Here are examples of things we've workedon:

- Implemented a system to allow restaurants to offer automaticorders using WhatsApp
