Technical Account Manager

Apply Now

Company: SKYLINE COMMUNICATIONS

Location: Bogotá

Category: business-and-financial-operations

Nice to meet you!

Are you ready to leave your mark on the world? Because we are the **global leading supplier** of end-to-end open **monitoring and orchestration software** for ICT, media and broadband platforms. Basically, our software platform—**called DataMiner**—makes sure that you can order your products online, watch the latest episode of your favorite show, or call your friends whenever you need them.

We're looking for a Technical Account Manager

As a Technical Account Manager, you are **responsible for the technical implementation** of all projects assigned to you. You are the **primary contact for the user** on all technical matters, and you function as an intermediary between the user and the different departments within Skyline.

SOME OF OUR USERS

DataMiner is deployed by **1500 companies** in over **125 countries** worldwide.

Let's get down to business

A glimpse of your [future]

Transparency is a key value here at Skyline. So let's forget about empty job titles or colorful descriptions for a moment and take a look at what you'd actually be doing here.

You will acquire and maintain detailed **knowledge of all DataMiner features** .

You will **take ownership** of the full technical implementation of your projects.

You will become your customer's **primary contact for all technical matters** related to your projects.

You will have to **fully understand all aspects** related to the functional and technical specifications of your projects.

You will **ensure sufficient documentation** of all technical requests to other Skyline departments to guarantee the efficient implementation of all technical aspects of your project.

You will **troubleshoot all technical issues** that affect project delivery.

You will **perform quality assurance** from a functional perspective on all technical features in your projects.

You will **create and maintain all required project documentation** for acceptance, hand-over, and internal presentation procedures.

You will **identify potential commercial opportunities** and notify the appropriate Sales Manager.

What skills do you require?

No doubt you know your way around code. But let's dig a bit deeper into the various technical skills you'll need to get started as a Technical Account Manager.

Profound knowledge of **HFC broadband**, **PTV**, **broadcast** and **satellite** systems

Profound knowledge of **TCP/IP** (firewalls, routers, ...), **multithreading web services**, and

.Net Remoting

Experience with **HTML**, **XML**, **client-server systems** and **SNMP**

Familiar with **software programming**

Strong affinity with **MS Windows** operating systems

Knowledge of **MySQL** and **Apache Cassandra** is an asset

Your [competencies]

You'll be working in a highly technical environment prone to constant change and evolution.

On top of that, you'll have to collaborate with a great many (marvelous) people. All very exciting!

But it also calls for a special kind of mind- and skillset.

You are a **fast learner** and **adapt quickly** to new situations.

You have a **positive can-do attitude** .

You are **communicative** and have effective interpersonal and organizational skills.

You think **logically** and always keep the client's needs in mind.

You have **natural technical insight** and are **passionate** about the benefits of software technology.

You can **work independently** and **prioritize tasks** .

You have good verbal and written **communication skills in English** .

You have a bachelor's, master's or doctorate **degree in ICT, Software and/or Telecom**
