Technical Lead (Python - React) - Hybrid Model

Apply Now

Company: Hylink Digital

Location: Bogotá

Category: business-and-financial-operations

Who We Are   Hylink Group was created from pure ambition. From the day we earned our very first client in 1994, to the global scale we have grown to become, our singular focus remains clear: work tirelessly to help our clients exceed their own ambitions. Whether crafting innovative campaigns that deliver storytelling at scale, or optimizing the curation and deployment of media with purpose, we believe each project is an opportunity to use our extraordinary diversity to reach, and to learn, and to grow stronger and more capable than ever before. It's a journey with no finish line, and that's just the way we like it. That's why we're looking for talented individuals who share that passion to come join our team.   Are you ready to Advance Beyond Ambition?   Responsibilities: Determine the requirements and analyze the budget for each project. Delegation of short and long term tasks and objectives. Ellaborate research of new tech solutions for our clients Coordinate with team members, management and clients to ensure that projects are performed optimally. Identify risks and develop plans for early resolution. Analyze existing operations in order to find improvements to be made. Keep abreast of industry trends and developments. Update work schedules and troubleshoot problems when necessary. Motivate staff and create a space in which to voice their concerns. Be transparent with the team about challenges, failures and successes. Write progress reports and report to leadership. Provide senior support to the developer team on specific occasions.   Qualifications: Bachelor's degree in computer science, engineering or related field. Relevant management certification is a plus. 4+ experience in a similar position. Excellent technical, diagnostic and problem solving skills. Strong leadership, management and organizational skills. Ability to establish professional relationships with

staff and customers. Excellent communication, motivational and interpersonal skills. Experience in Python (Django, Fast API) React, Vue and Node Advance english level. Recruitment Process: You will be contacted by our team within 72 hours of your application. Our recruitment process takes a maximum of 21 days from the first interview and you will be notified in case of success or failure . Hylink is an Equal Opportunity Employer committed to providing a workplace free from discrimination or harassment. We believe that no one should be discriminated against because of their differences, such as age, disability, ethnicity, gender, gender identity and expression, religion or sexual orientation. Decisions related to hiring, compensating, training, evaluating performance, or terminating are made fairly without regard to age, race, creed, color, religion, sex, national origin, ancestry, disability status, veteran status, sexual orientation, gender identity or expression, genetic information, marital status, citizenship status or any other basis as protected by federal, state, or local law.
