Category: computer-and-mathematical

Work from home fullstack .net + angular architect /research + development - Work from home fullstack .net + angulararchitect / research + development Compartir oferta Compartiroferta Work from home fullstack .net + angular architect / research+ development 1886110744 At BairesDev, we've been leading the way in technology projects for over 15 years. We deliver cutting-edge solutions to giants like Google and the most innovative startups in Silicon Valley. Our diverse 4,000+ team, composed of the world's Top 1% of tech talent, works remotely on roles that drive significant impact worldwide. When you apply for this position, you're taking the first step in a process that goes beyond the ordinary. We aim to align your passions and skills with our vacancies, setting you on a path to exceptional career development and success. We are looking for a Fullstack .NET + Angular Architect to join BairesDev Research & Development Team (R&D). Our R&D team is the essential part of our technology solutions that drive millions in revenue every year, so we only hire the best of the best. Within the team you'll find many different challenges: Data analysis, Machine Learning, Desktop, and web developments are some of the most relevant right now, but in order to drive innovation, you'll notice that new things are coming up every day! The R&D area is undoubtedly the most interesting and challenging area of the entire company, and although BairesDev is composed of really talented people in general, here you will find professionals with extensive experience and also intellectual and creative levels, far above average. We want people to enjoy the trip. Are you ready? What You Will Do: - Take full control of the projects in development. - Create detailed specifications from which programs will be written. - Maintain user accounts and security in applications and ensure the security of

departmental data with a thorough working knowledge of standard methodologies. - Assemble with the product owner the architecture plan (includes database model) and project development, including objectives with deadlines and clear metrics that will be periodically reviewed. - Perform, when necessary, the functional analysis of user requirements, as a link between the client and the development team. - Human resources management including interview and hiring processes. Here's what we're looking for: - 6+ years of experience working as a developer, with practical experience in Web projects, C #, SQL Server. - Experience in developing applications using Angular/.NET technology stack. - Solid experience with HTML, CSS, and writing cross-browser-compatible code. - Experience with MVC. - Experience in development with object-oriented programming is desirable. - Advanced English level. How we make your work (and your life) easier: - 100% remote work (from anywhere). - Excellent compensation in USD or your local currency if preferred - Hardware and software setup for you to work from home. - Flexible hours: create your own schedule. - Paid parental leaves, vacations, and national holidays. - Innovative and multicultural work environment: collaborate and learn from the global Top 1% of talent. - Supportive environment with mentorship, promotions, skill development, and diverse growth opportunities. Join a global team where your unique talents can truly thrive! \*IMPORTANT\* Don't wait for our email to get started! Apply now and head over to our Applicants Site. We'll guide you to speed up your progress in the next steps of your selection process. At BairesDev, we've been leading the way in technology projects for over 15 years.
