- Implement and iterate features in a tactical manner and rapid pace.
- Work collaboratively and efficiently across functional teams in a fast-paced early-stage startup environment.
- Design, extend, and implement APIs.
- Maintain the high standard of engineering quality through code reviews, unit tests, and analytics.
- Create engineering efficiencies through automation and development of tools.
- Define engineering processes for product launches and releases.

Here's what we're looking for:

- 2+ years of experience in Node.
- Experience with SQL and NoSQL Databases.
- Experience with Microservices and the Cloud.
- Advanced algorithm knowledge.
- IT infrastructure knowledge.
- Intermediate agile methodologies management.
- Understanding of best practices, SOLID principles, CLEAN Code, and scalable solutions.
- Design Patterns knowledge.
- Experience developing

applications. - Experience in automated tests, and CI/CD pipeline. - Experience with Version control. - Advanced English level. How we do make your work (and your life) easier:

- 100% remote work.
- Hardware setup for you to work from home.
- Flexible hours - make your schedule.
- Paid parental leave, vacation & holidays.
- Diverse and multicultural work environment.
- An innovative environment with the structure and resources of a leading multinational.
- Excellent compensation — well above the market average.
- Here, you can grow at the speed of your learning curve.

Our people work remotely with a consistent and robust culture promoting diversity and teamwork. To continue being the leading software development company in Latin America, we want to ensure that every BairesDev member gets the best growth and professional development opportunities in a diverse, welcoming, and innovative environment. Every BairesDev team member brings something unique to our company. We want to hear your story. Apply now! Profesional Senior 1886150670#J-18808-Ljbffr
