Work From Home .NET Architect / R + D

Apply Now

Company: Bairesdev S.A.

Location: Doyare Centro

Category: computer-and-mathematical

At BairesDev, we've been leading the way in technology projects for over 15 years. We deliver cutting-edge solutions to giants like Google and the most innovative startups in Silicon Valley.

Our diverse 4,000+ team, composed of the world's Top 1% of tech talent, works remotely on roles that drive significant impact worldwide.

When you apply for this position, you're taking the first step in a process that goes beyond the ordinary. We aim to align your passions and skills with our vacancies, setting you on a path to exceptional career development and success.We are looking for a .NET Architect to join BairesDev Research & Development Team (R&D).Our R&D team is the essential part of our technology solutions that drive millions in revenue every year, so we only hire the best of the best.Within the team you'll find many different challenges: Data analysis, Machine Learning, Desktop, and web developments are some of the most relevant right now, but in order to drive innovation, you'll notice that new things are coming up every day!The R&D area is undoubtedly the most interesting and challenging area of the entire company, and although BairesDev is conformed by really talented people in general, here you will find professionals with extensive experience and also intellectual and creative level, far above average.We want people to enjoy the trip. Are you ready?

What You Will Do:

- Take full control of the projects in development.- Develop (analyze requirements, document, and test), MS-SQL server stored procedures, and Web-based applications using ASP and ASP.NET.- Create and maintain complex reports using MS-SQL server Devices and or modify procedures to solve the most complex technical problems related to computer equipment capacity and limitations, operating time, and form of desired results.- Create detailed specifications from which programs will be written.- Maintain user accounts and security in applications and ensure the security of departmental data with a thorough working knowledge of standard methodologies.- Assemble with the product owner the architecture plan (includes database model) and project development, including objectives with deadlines and clear metrics that will be periodically reviewed.- Perform, when necessary, the functional analysis of user requirements, as a link between the client and the development team.- Human resources management including interview and hiring processes.

Here's what we're looking for:

- 6+ years of experience in Web projects, C #, SQL Server.- Experience with HTML / CSS and Javascript frameworks.- Experience with MVC.- Experience with OOD.- Advanced English level.How we make your work (and your life) easier:

- 100% remote work (from anywhere).- Excellent compensation in USD or your local currency if preferred- Hardware and software setup for you to work from home.- Flexible hours: create your own schedule.- Paid parental leaves, vacations, and national holidays.- Innovative and multicultural work environment: collaborate and learn from the global Top 1% of talent.- Supportive environment with mentorship, promotions, skill development, and diverse growth opportunities.Join a global team where your unique talents can truly thrive!

IMPORTANT Don't wait for our email to get started! Apply now and head over to our Applicants Site. We'll guide you to speed up your progress in the next steps of your selection process.Profesional Senior1886110742
