Category: computer-and-mathematical

- Work from home semi senior python backend developer/ r + d Work from home semi senior python backend developer / r + d At BairesDev, we've been leading the way in technology projects for over 15 years. We deliver cutting-edge solutions to giants like Google and the most innovative startups in Silicon Valley. Our diverse 4,000+ team, composed of the world's Top 1% of tech talent, works remotely on roles that drive significant impact worldwide. When you apply for this position, you're taking the first step in a process that goes beyond the ordinary. We aim to align your passions and skills with our vacancies, setting you on a path to exceptional career development and success. We are looking for outstanding Semi Senior Python Backend Developers to join BairesDev Research & Development Team (R&D). Our R&D team is an essential part of our technology solutions that drive millions in revenue every year, so we only hire the best of the best. Within the team you'll find many different challenges: Data analysis, Machine Learning, Desktop, and web developments are some of the most relevant right now, but in order to drive innovation, you'll notice that new things are coming up every day! The R&D area is undoubtedly the most interesting and challenging area of the entire company, and although BairesDev is conformed of really talented people in general, here you will find professionals with extensive experience and also intellectual and creative levels, far above average. We want people to enjoy the trip. Are you ready? What You Will Do: - Create automation systems and tools to configure, monitor, and orchestrate data infrastructure and pipelines. - Create data integration services to help onboard new customers as quickly as possible. - Maintain ongoing reliability, performance, and support of the data infrastructure, providing solutions based on application

needs and anticipated growth. - 3+ years of practical experience in Python and Django development. - Experience in development with object-oriented programming is desirable. - 3 years of development using other programming languages. - Good skills with XML and relational databases (Oracle / MS SQL / MySQL). - Strong professional experience working with large data structures (including XML) and algorithms. - Advanced English level. How we make your work (and your life) easier: - 100% remote work (from anywhere). - Excellent compensation in USD or your local currency if preferred - Hardware and software setup for you to work from home. - Flexible hours: create your own schedule. - Paid parental leaves, vacations, and national holidays. - Innovative and multicultural work environment: collaborate and learn from the global Top 1% of talent. - Supportive environment with mentorship, promotions, skill development, and diverse growth opportunities. Join a global team where your unique talents can truly thrive! *IMPORTANT* Don't wait for our email to get started! Apply now and head over to our Applicants Site. We'll guide you to speed up your progress in the next steps of your selection process. Lean, Agile, IT/Information Technology, Python, Django, Oracle, MS SQL, MySQL Professional Senior 1886110280 #J-18808-Ljbffr
